Amendments to the Claims:

The following listing of claims replaces all prior versions and listings of the claims in the application:

Listing of Claims:

Claims 1-14 (Cancelled).

1
Claim ~~15~~ (Currently Amended): Method for increasing insulin sensitivity in a non-obese patient, which method comprises the administration of growth hormone or growth hormone analogue having an additional methionine residue at the N-terminal end analogue thereof to the patient in a low dose, wherein the patient is prone to developing type-2 diabetes and syndrome X.

Claim 16 (Cancelled).

2
Claim ~~17~~ (Previously Presented): Method according to claim 15, wherein the patient is not a growth hormone deficient patient.

3
Claim ~~18~~ (Previously Presented): Method according to claim 15, wherein the dose is less than 0.008 mg/kg/day.

4
Claim ~~19~~ (Previously Presented): Method according to claim 15, wherein the dose is 0.005 mg/kg/day or less.

U.S. Patent Application Serial No.: 10/761,505
Amendment dated November 13, 2006
Official Action dated June 13, 2006

5
Claim ~~20~~ (Previously Presented): Method according to claim 15, wherein the dose is 0.003 mg/kg/day or less.

6
Claim ~~21~~ (Previously Presented): Method according to claim 15, wherein the administration is performed during less than one month.

7
Claim ~~22~~ (Previously Presented): Method according to claim 15, wherein the dose is 0.007 mg/kg/day or less.
